

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides a variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what is permitted to hear. I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. There are songs and stations that will never be on the radio. I love being able to hear the songs of yester year because the radio stations keep playing the same freakin songs.

Thanks!
